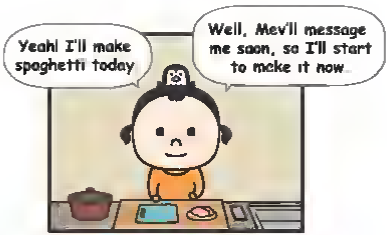
Telepathy

For example,...



Yeah! I'll make spaghetti today.
Well, Mev'll message me soon, so I'll start to make it now.

Ah! This is Mev's message!
Ah.... Ha ha.

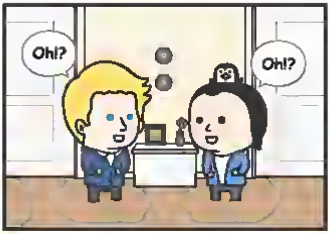
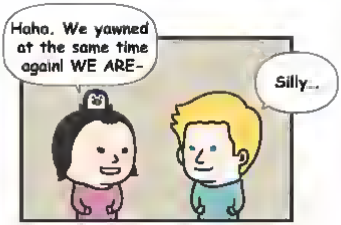
Coming home~
Can we have spaghetti for dinner today?

...when we want the same food at the same time,...

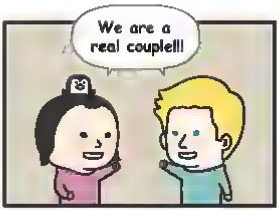


.. or when we wear very similar clothes on the same day.

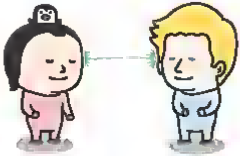
Even. ..



...when we yawn at the same time.

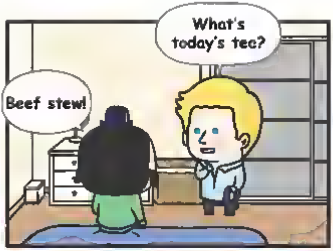


I feel good that
we connected in some way.

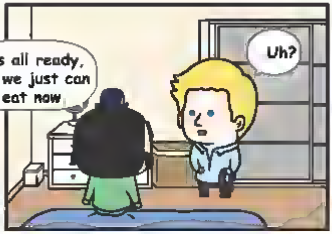


I feel, there is something like telepathy between us, it makes our relationship extra special.

I feel the most happiness by our telepathy...



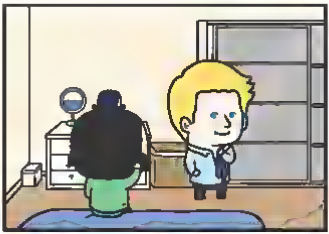
What's today's tec?
Beef stew!

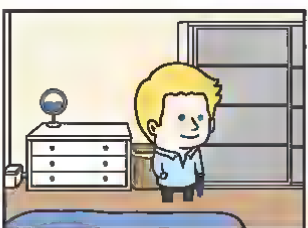


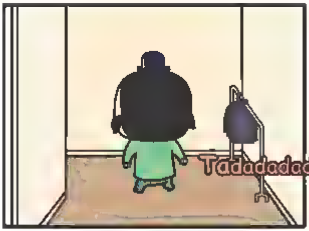
Uh?
It's all ready, so we just can eat now

Did you hear something?

Nope? I didn't hear anything. Why?
I think there is someone at the front door.







Tadadadada

Opened-

...when we both wanted to have some snacks!!
